

Company

Mr/Ms

Obligation relating to use of a password, a SecurID card and use of Volkswagen PKI-Card

A user authorization has been applied for your work with Volkswagen Aktiengesellschaft computers and IT systems. To prove your identity, you must enter your allocated login data (password, SecurID-PIN, or PKI-PIN) every time you use a computer.

To prevent misuse of your identity and your access rights, you are obliged:

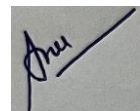

- when using a password:
 - to change your initial password at the first login
 - to keep your password secret from all other persons
 - to change your password without delay if it becomes known to another party
- when using a SecurID card:
 - to make sure that this card does not deliberately or as a result of negligence, become accessible to other people
 - to report loss or damage of the card immediately to the responsible distribution center and to return the card immediately if you no longer require it, e.g. if you change your field of activity or leave your company
- when using the Volkswagen PKI-Card:
 - to keep the Volkswagen PKI-Card in a safe place and to protect it against theft or unauthorised use
 - to keep the corresponding PIN sealed and separated from the Volkswagen PKI-Card. The PIN must not be saved or noted openly.
 - to report loss or damage of the PKI card immediately to the responsible card distribution center and to return the card immediately if you no longer require it, e.g. if you change your field of activity or leave your company

Furthermore, the Information Security Guidelines for Suppliers (Regulation No. 02.06.) apply for the use of passwords, SecurID cards, or Volkswagen PKI-Cards.

The passwords are a Volkswagen Aktiengesellschaft company secret. If you make your passwords, PKI Card/PIN, or SecurID card accessible to other persons deliberately or grossly negligent, this constitutes a breach of the secrecy obligation in our contract with the Volkswagen Aktiengesellschaft. We could be liable for damage caused.

This obligation is an integral component of the existing contractual relationship.
